

SNS(Simple Notification Service)

The image displays three sequential screenshots of the AWS Management Console, illustrating the process of creating and managing an Amazon SNS topic and subscription.

Screenshot 1: Create Topic
The URL is `https://ap-south-1.console.aws.amazon.com/sns/v3/home?region=ap-south-1#/create-topic`. The page shows options to "Override subscription policy" (set to False) and sections for "Delivery status logging - optional", "Tags - optional", and "Active tracing - optional". At the bottom, there are "Cancel" and "Create topic" buttons.

Screenshot 2: Subscription Confirmed
The URL is `https://sns.ap-south-1.amazonaws.com/confirmation.html?TopicArn=arn:aws:sns:ap-south-1:381492083874:Rmgchannel&To...`. It displays a green box with the message "Subscription confirmed! You have successfully subscribed." and provides the subscription ID: `arn:aws:sns:ap-south-1:381492083874:Rmgchannel:8c5243c5-996c-46aa-a2b4-4bd45ad50139`. A link to "unsubscribe" is also present.

Screenshot 3: Topic Details
The URL is `https://ap-south-1.console.aws.amazon.com/sns/v3/home?region=ap-south-1#/topic/arn:aws:sns:ap-south-1:381492083874:Rmgchannel`. The left sidebar shows the "Amazon SNS" navigation menu. The main content area shows the topic details for "Rmgchannel", including its ARN, Topic owner, and Type (Standard). Below this, the "Subscriptions" tab is active, showing a table with one subscription:

ID	Endpoint	Status	Protocol
8c5243c5-996c-46aa-a2b4-4bd45ad50139	kishore.vijay@aspire...	Confirmed	EMAIL
