Demo – Selectors

Code
```html
<!DOCTYPE html>

<html>

<head>

   <title>Selectors</title>

</head>

<body>

   <h4 id="demoId">ID 1.</h4>

   <p name="demoName">First element.</p>

   <h5 name="demoName">Second element.</h5>

   <p class="demoClass">Third element.</p>

   <h4 class="demoClass">Fourth element.</h4>

   <script>

     var idelement = document.getElementById("demoId");

     var tagelements = document.getElementsByTagName("p");

     var nameelements = document.getElementsByName("demoName");

     var classelements = document.getElementsByClassName("demoClass");

     console.log(idelement);
```
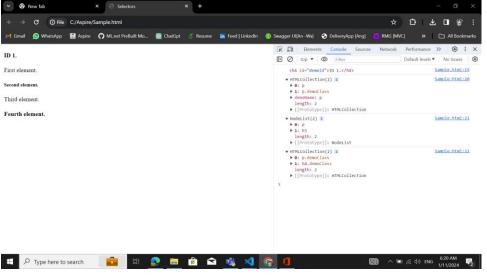

```
        console.log(tagelements);

        console.log(nameelements);

        console.log(classelements);

    </script>

</body>

</html>
```
