Next Steps

🔍 What would you like to do next with this instance, for example "create alarm" or "create backup"   ‹ **1** 2 3 4 5 6 ›

Create billing and free tier usage alerts	Connect to your instance	Connect an RDS database	Create EBS snapshot policy
To manage costs and avoid surprise bills, set up email notifications for billing and free tier usage thresholds.	Once your instance is running, log into it from your local computer.	Configure the connection between an EC2 instance and a database to allow traffic flow between them.	Create a policy that automates the creation, retention, and deletion of EBS snapshots
